FINEST FACTS FROM BREEDERS AROUND THE WORLD

On 280 pages you will see beautiful horses living on farms around the world.

This book takes you on a trip around the world to explore different types of Miniature Horses and interesting farm backgrounds. You travel from country to country, showing off some of the world's best equines.

All these ingredients together result in this book being a very unique one.
A perfect gift for someone special.

The creation of this photo book is not as easy as it might seem. Different skills have to be brought together, the needs of the various farm owners have to be met and the necessary knowledge you wish to portray has to be acquired.

Through the photographs, every reader will have the chance to examine their own personal tastes and objectives as a breeder. In the interest of horse lovers everywhere, the images in this book will help give you a closer look at the true nature of the Miniature Horse. The readers of this book have an opportunity to admire many of the world's most beautiful horses, as well as to study their lineage which gives insight into many breeding programmes around the globe.

A handsome tribute to the beauty – both physical and spiritual – of these magnificent creatures, this volume is a comprehensive work to be treasured by horse and animal lovers of all ages.

Without Carsten Knopf (Service Crew – EDITION Verlag) and his support the whole project would not have been possible. I am grateful to each of the photographers, especially Liz McMillan, without their work this book wouldn't have been possible.

Let us take you on a trip around this small world, where we will tell you the stories behind the photos, the horses, the farms and the people who love them.

Sit back and enjoy a photographic thrill and adventure...

Christina Zeitelhack
